

The background of the slide is a 3D-rendered pattern of white, isosceles triangles. These triangles are arranged in a staggered, overlapping fashion, creating a sense of depth and perspective. The lighting is soft, casting subtle shadows that emphasize the three-dimensional nature of the geometric shapes.

# RESEARCH AND INNOVATION IN THE EU

UAB, BARCELONA, 27 SEPTEMBER 2019

---

# CONTENT OF THE PRESENTATION

- Part: I – Introduction to Research & Innovation and Education policies and their funding opportunities in the EU
  - A. Research and Innovation
  - B. Education
- Part II - Practical overview of policy influence in Brussels and developing a new EU research framework programme

## A. Research and Innovation

- ## B. Education

- Funding programme: Erasmus +

## A. RESEARCH AND INNOVATION IN THE EU

**500 million people - 28 countries - a single market\***

- 7% of the World's population
- 24% of world expenditure on research
- 32% of high-impact publications
- 32% of patent applications

**\*Free movement of people, goods, services, capital and knowledge**

---

# A. RESEARCH AND INNOVATION IN THE EU

## I. Why do we need a European research and innovation policy?

- R+I contribute to making Europe a better place: improve healthcare, transport digital services, new products and services
- To improve competitiveness, boost jobs and growth
- To address global challenges: demographic change, global warming, etc.
- To coordinate actions at European scale for greater impact vs 28 times funding the same research
- To create a European network of research excellence

Furthermore, Research & Technological Development is based in the Treaties of the EU...

---

## A. RESEARCH AND INNOVATION IN THE EU

### What's the legal base for R&I in the EU?

Three categories of EU competence:

- Exclusive competence ([Article 3 TFEU](#))
- Shared competence ([Article 4 TFEU](#))
- Competence to support, coordinate or supplement actions by Member States ([article 6 TFEU](#))
- In addition: Competence to provide arrangements within which EU Member States must coordinate policy (see [Article 5 TFEU](#))

# A. RESEARCH AND INNOVATION IN THE EU

## What's the legal base for R&I in the EU?

- **Exclusive competence (Article 3 TFEU)**
  - customs union
  - the establishing of the competition rules necessary for the functioning of the internal market
  - monetary policy for the member states whose currency is the euro
  - conservation of marine biological resources under the common fisheries policy
  - common commercial policy
  - concluding international agreements

## A. RESEARCH AND INNOVATION IN THE EU

### What's the legal base for R&I in the EU?

#### ➤ Shared competence (Article 4 TFEU)

- research, technological development and space
- internal market
- social policy, limited to the aspects defined in the TFEU
- economic, social and territorial cohesion
- agriculture and fisheries, excluding the conservation of marine biological resources
- environment
- consumer protection
- transport
- trans-European networks
- energy
- area of freedom, security and justice

# A. RESEARCH AND INNOVATION IN THE EU

## What's the legal base for R&I in the EU?

- **Competence to support, coordinate or supplement actions of the Member States**  
([Article 6 TFEU](#))
  - protection and improvement of [human health](#)
  - [industry](#)
  - [culture](#)
  - [tourism](#)
  - [education, vocational training, youth](#) and [sport](#)
  - [civil protection](#)
  - administrative cooperation

## Content of the TFEU

- 1 History
- 2 Present contents
  - 2.1 Part 1, Principles
  - 2.2 Part 2, Non-discrimination and citizenship of the Union
  - **2.3 Part 3, Union policies and internal actions**
    - 2.3.1 Title I: Internal market
    - 2.3.2 Title II: Free movement of goods
    - 2.3.3 Title III: Agriculture and Fisheries
    - 2.3.4 Title IV: Free movement of workers, services and capital
    - 2.3.5 Title V: Area of freedom, justice and security
    - 2.3.6 Title VI: Transport
    - 2.3.7 Title VII: Common Rules on Competition, Taxation and Approximation of Laws
    - 2.3.8 Title VIII: Economic and monetary policy
    - **2.3.9 Titles IX to XV: Employment, social and consumer policy**
    - **2.3.10 Titles XVI to XXIV Networks, industry, environment, energy, other**
  - 2.4 Part 4, Association of the overseas countries and territories
  - 2.5 Part 5, External action by the Union
  - 2.6 Part 6, Institutional and financial provisions
  - 2.7 Part 7, General and final provisions
- 4 References

# A. RESEARCH AND INNOVATION IN THE EU

**What's the legal base for R&I in the EU?**

- **Legal base for EU policies and internal action: Treaty of Functioning of the EU (TFEU), consolidated version of 2012**
- **TITLE XIX**
- **RESEARCH AND TECHNOLOGICAL DEVELOPMENT AND SPACE**
- Read Articles 179 – 190

# A. RESEARCH AND INNOVATION IN THE EU

## A brief history of EU Research Policy

- **1950s:** Provisions for research are included in the European Coal and Steel Community (ECSC, 1951) and European Atomic Energy Community (Euratom, 1957) treaties.
- **1957:** The treaty setting up the European Economic Community (the EEC or 'common market') leads to a number of research programmes in areas considered priorities at the time, such as energy, the environment and biotechnology.
- **1983:** The European strategic programme on research in information technology (Esprit) launches a series of integrated programmes in information technology research, as well as development projects and industrial technology transfer measures.
- **1984:** The first 'framework programme (FP)' for research is launched. These programmes will become the EU's main funding instrument for research. **FP I focuses on research in biotechnology, telecommunications and industrial technology.**
- **1986:** Research becomes a formal Community policy, with a specific chapter in the Single European Act. The objective is to 'strengthen the scientific and technological basis of European industry and to encourage it to become more competitive at international level'.
- **2000:** The EU agrees to work towards a **European research area (ERA): a unified research area open to the world and based on the internal market, in which researchers, scientific knowledge and technology can circulate freely.**
- **2007:** The European Research Council (ERC) is created as part of the seventh framework programme (FP7). Its mission is the support of frontier research across all fields, on the basis of scientific excellence.
- **2008:** The Budapest-based European Institute of Innovation and Technology is created: the first EU initiative to fully integrate all three sides of the 'knowledge triangle' (higher education, research and business) through support for knowledge and innovation communities. It becomes operational in 2010.
- **2010:** The EU launches the innovation union, an initiative consisting of more than 30 action points aimed at improving conditions and access to finance for research and innovation in Europe. The innovation union is placed at the heart of the Europe 2020 strategy to ensure that innovative ideas can be turned into products and services creating growth and jobs.
- **2014:** Horizon 2020, the biggest EU research and innovation framework programme ever, is launched. A major financial instrument for implementing the innovation union, it will run from 2014 to 2020 with a budget of almost €80 billion. Horizon 2020 is part of the drive to create new growth and jobs in Europe.

---

## A. RESEARCH AND INNOVATION IN THE EU

### 2. How does the EU support Research and Innovation?

- [Video R & I in the EU](#) (1:48)

# A. RESEARCH AND INNOVATION IN THE EU

## 2. How does the EU support Research and Innovation?

Evolution of Framework Programme funding:

ID	Framework Programme	period	Budget (billions of €)
FP1	First	1984–1987	3.8
FP2	Second	1987–1991	5.4
FP3	Third	1990–1994	6.6
FP4	Fourth	1994–1998	13.2
FP5	Fifth	1998–2002	15.0
FP6	Sixth	2002–2006	16.3
FP7	Seventh	2007–2013	50.5 over seven years + 2.7 for Euratom over five years
FP8	Horizon 2020 (Eighth)	2014–2020	77
FP9	Horizon Europe (Ninth)	2021–2027	94 (proposal by EC)

Spending on research and development in 2015 (% of GDP)

## A. RESEARCH AND INNOVATION IN THE EU

- **Horizon 2020 (FP8) Budget in the EU Budget**

### The Multiannual Financial Framework 2014-2020: European Council conclusions, 8 February 2013

**Key challenge:** stabilise the financial and economic system while taking measures to create economic opportunities

#### 1. Smart & inclusive growth (€451 billion)

#### 2. Sustainable growth, natural resources (€373 billion)

#### 3. Security and citizenship (€16 billion)

#### 4. Global Europe (€58 billion)

#### 5. Administration (€61.6 billion)

HORIZON 2020

# HORIZON 2020 – THE CURRENT EU RESEARCH AND INNOVATION FRAMEWORK PROGRAMME (2014-2020)

- € 77 billion (increase in 23% on FP7) for 7 years
- New focus on innovation, deliver economic growth faster and delivering solutions to end users (focus on FP6 and FP7 was on technological research)
- Open to the World ! Participation of companies, universities, institutes in EU and beyond
- Link to EU policy objectives: Europe 2020 Strategy for *Smart, Sustainable and Inclusive Growth* and Juncker Commission's 10 priorities

# HORIZON 2020

- **Current political priorities of the Juncker Commission**

The investment plan: a new boost for jobs, growth and investment

A connected digital single market

A resilient energy union with a forward-looking climate change policy

A deeper and fairer internal market with stronger industries

A deeper and fairer economic and monetary union

A reasonable and balanced free trade agreement with the United States

An area of justice and fundamental rights based on mutual trust

A new policy on migration

Europe as a stronger global actor

A European Union of democratic change

# OBJECTIVES OF HORIZON 2020

Complete European Research Area (ERA) by coordinating national policies and pooling research funding in some areas to avoid duplication

Policy instrument to implement high level policy initiatives of the EU, such as Europe 2020 and the Innovation Union

# HORIZON 2020

**Motto of EU Commissioner for Research & Innovation, Carlos Moedas:**

- The three O's:
  - Open Science
  - Open Innovation
  - Open to the World

# HORIZON 2020: THREE PRIORITIES

# H2020 PRIORITY I. EXCELLENT SCIENCE

**€24.4 Billion**

## ***Why:***

- *World class science is the foundation of tomorrow's technologies, jobs and well-being*
- *Europe needs to develop, attract and retain research talent*
- *Researchers need access to the best infrastructures*

<b>European Research Council</b> <i>Frontier research by the best individual teams</i>	<b>13.095</b>
<b>Future and Emerging Technologies</b> <i>Collaborative research to open new fields of innovation</i>	<b>2.696</b>
<b>Marie Skłodowska Curie Actions*</b> <i>Opportunities for training and career development</i>	<b>6.162</b>
<b>Research Infrastructures</b> <i>(including e-infrastructures)</i> <i>Ensuring access to world-class facilities</i>	<b>2.488</b>

## H2020 PRIORITY 2. INDUSTRIAL LEADERSHIP

**€17 Billion**

### **Why:**

- *Strategic investments in key technologies (e.g. advanced manufacturing micro-electronics) underpin innovation across existing and emerging sectors*
- *Europe needs to attract more private investment in research and innovation*
- *Europe needs more innovative SMEs to create growth and jobs*

<b>Leadership in enabling and industrial technologies</b> <i>(ICT, nanotechnologies, materials, biotechnology, manufacturing, space)</i>	<b>13.557</b>
<b>Access to risk finance</b> <i>Leveraging private finance and venture capital for research and innovation</i>	<b>2.842</b>
<b>Innovation in SMEs</b> <i>Fostering all forms of innovation in all types of SMES</i>	<b>616</b>

## H2020 PRIORITY 3. SOCIETAL CHALLENGES

**€31 Billion**

### **Why:**

- *Concerns of citizens and society  
EU policy objectives  
(climate, environment, energy,  
transport etc.) cannot be  
achieved without innovation*
- *Breakthrough solutions  
come from multi-disciplinary  
collaborations, including social  
sciences & humanities*
- *Promising solutions need to be  
tested, demonstrated and  
scaled up*

Health, demographic change and wellbeing	7.472
Food security, sustainable agriculture, marine and maritime and inland water research and the bioeconomy	3.851
Secure, clean and efficient energy	5.931
Smart, green and integrated transport	6.339
Climate action, environment, resource efficiency and raw materials	3.081
Inclusive, innovative and reflective societies	1.310
Secure societies	1.695
Science with and for society	462
Spreading excellence and widening participation	816

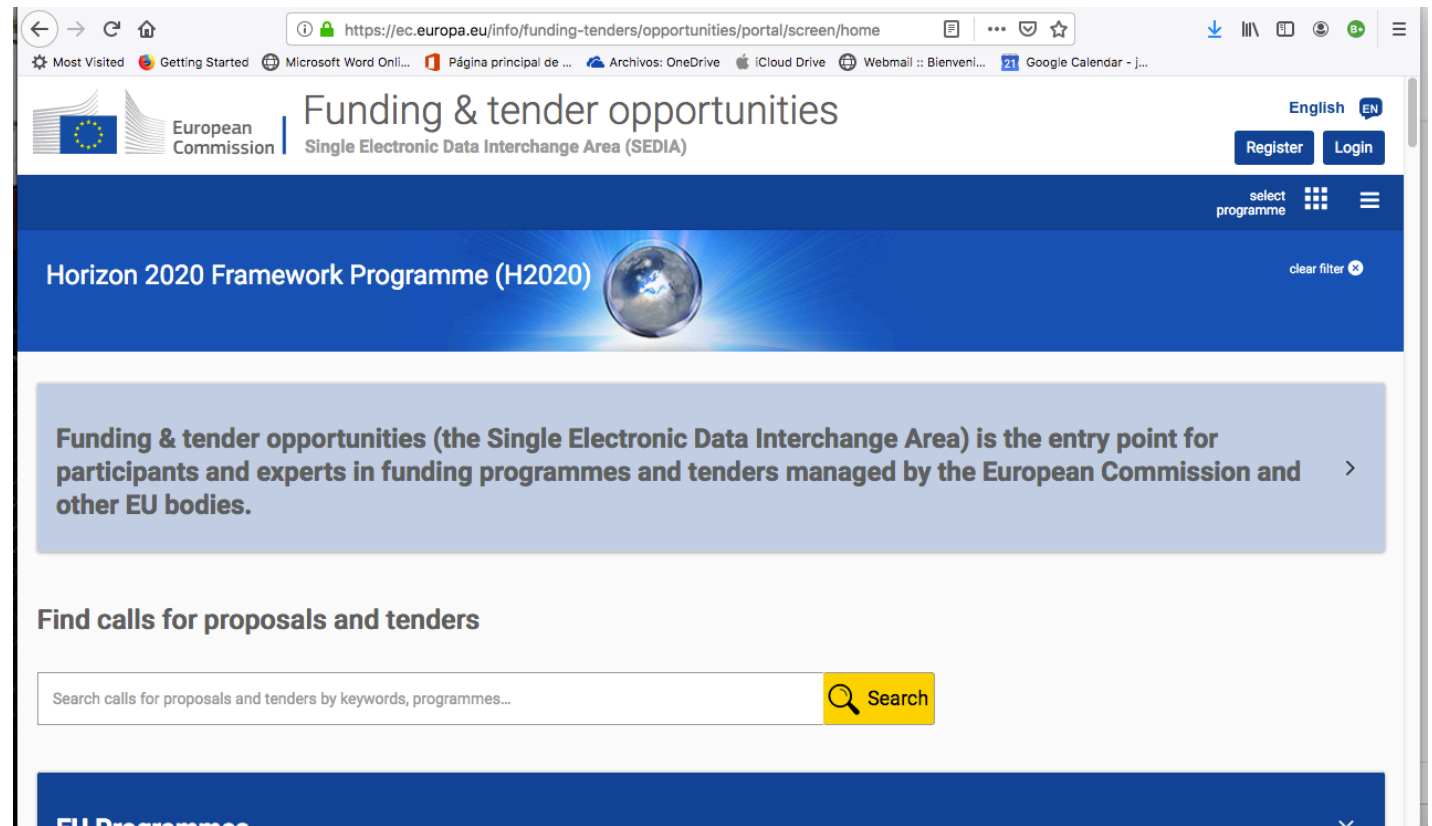

- The programme is implemented through DG Research and Innovation and other DGs as well as Executive Agencies of the European Commission

# HORIZON 2020

## What and how:

- Horizon 2020 provides grants to research and innovation projects through open and competitive calls for proposals published in the [EU Funding and Tenders Portal](#)

# HORIZON 2020

*Participation from outside the EU is explicitly encouraged*

## Who can apply:

- Researchers throughout the world can participate in Horizon 2020 projects - though they are not always eligible for H2020 funding
- Regarding funding, we can distinguish between countries that are automatically eligible for funding and those that are not:
  - Participants from EU Member States and Associated Countries to H2020 are automatically funded (16 AC, e.g. Iceland, Norway, Turkey, Israel, Switzerland, Ukraine, etc.)
  - Participants from 130 developing countries are automatically eligible for funding
  - Participants from industrialised countries and emerging economies are not automatically eligible for funding: specific circumstances apply
  - Individual researchers from any country in the world seeking the opportunity to work in Europe for a certain period of their career can apply for funding through the European Research Council and the Marie Skłodowska-Curie actions

# HORIZON 2020

## Simple rules for participation

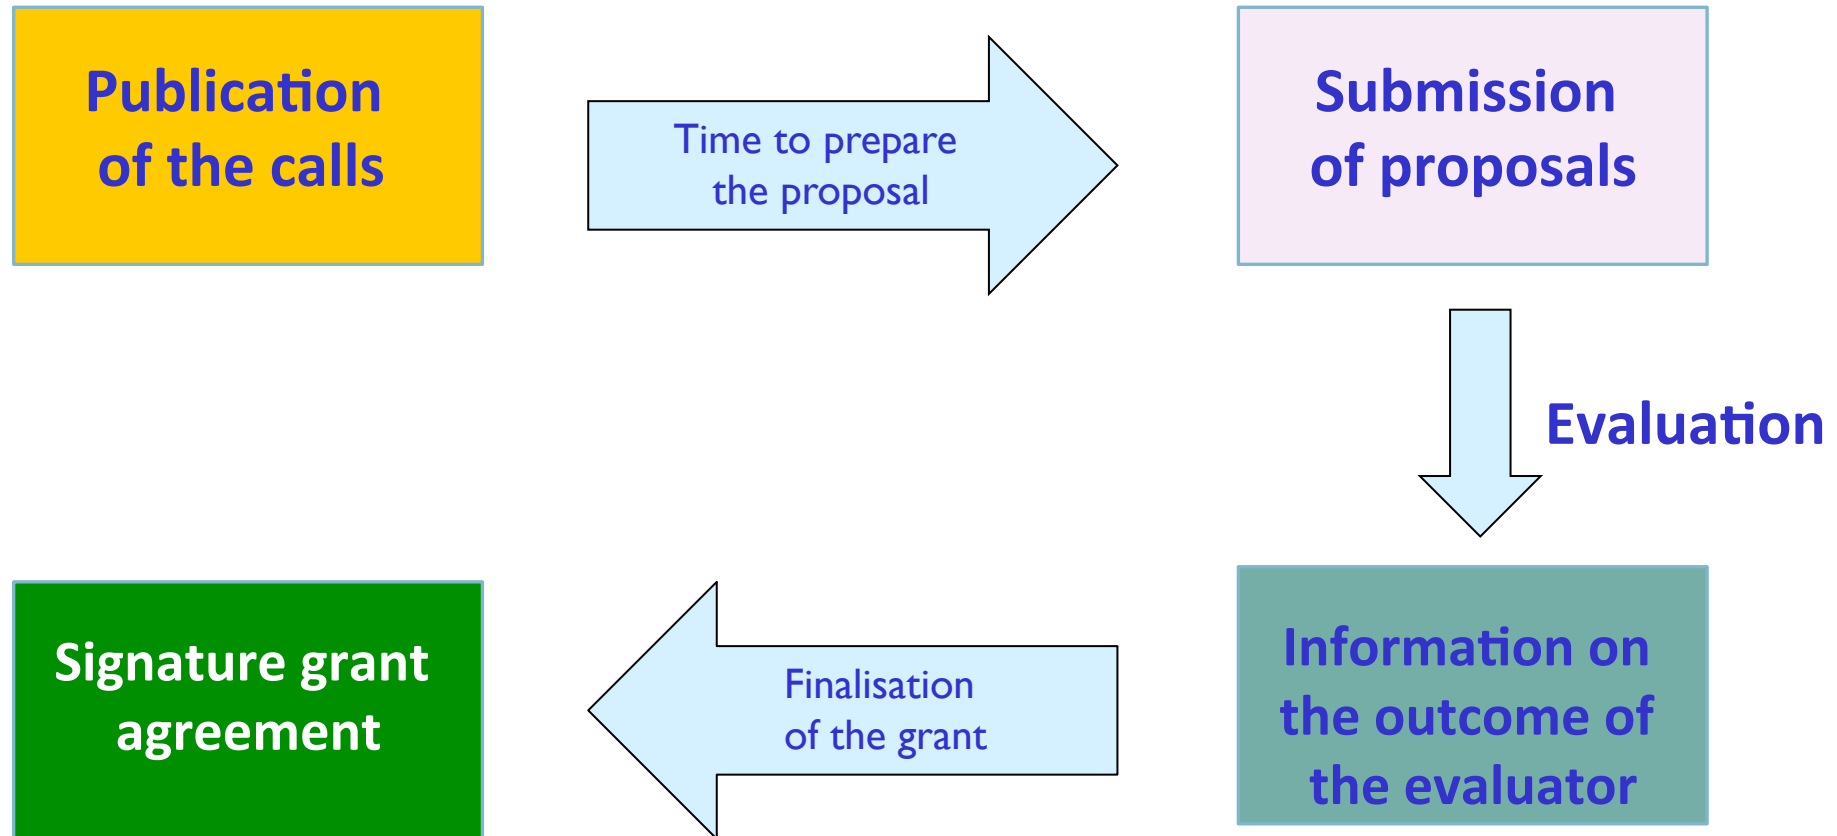

Minimum conditions:

- At least 3 independent legal entities
- Established in 3 different EU Member States or Associated Countries

However, in some calls/ topics also an international collaboration is expected and an international partner should be taken up in the consortium.

# HORIZON 2020: FROM CALL TO GRANT

# HORIZON 2020: EVALUATION OF PROPOSALS

✓ **ERC** frontier Research actions >> only "EXCELLENCE"

✓ **Innovation actions** higher weighting for "IMPACT"

# HORIZON 2020 PROJECT EXAMPLES

## **Breakthrough Prize awarded to black hole image team**

*On 5 September 2019, the 2020 Breakthrough Prize was awarded to the Event Horizon Telescope (EHT), a global scientific collaboration involving EU-funded scientists that captured the first-ever image of a black hole. The [Breakthrough Prize](#), awarded since 2013, recognises achievements in life sciences, fundamental physics and mathematics. Each award is worth \$3 million.*

*EU funding through the European Research Council (ERC) has provided crucial support to the Event Horizon Telescope. In particular, the EU has made available a grant of €14 million for three of the leading scientists and their teams involved in the discovery. Over the past 15 years some €30 million from Horizon 2020 and previous research framework programme supported the development and upgrading of the large telescope infrastructure essential to the success of the project. It was revealed in April this year and marked a paradigm shift in our understanding of black holes. It also confirmed the predictions of Albert Einstein's General Theory of Relativity and opened up new lines of enquiry into our universe.*

# HORIZON 2020 PROJECT EXAMPLES

## A MAJOR CONTRIBUTION TO ERADICATING EBOLA

Horizon 2020 and Europe's pharmaceutical industry invested about EUR 300 million to speed up vaccine development and treatments for the deadly disease.

<http://ec.europa.eu/research/health/index.cfm?pg=area&areaname=ebola-projects>

## EU-AFRICA: INCREASED COOPERATION IN RESEARCH AND INNOVATION

It will enhance the coordination of R&I programmes relevant to food and nutrition security in Europe and Africa. The EC has launched an Eranet cofund of 10 million euros in Horizon 2020 to achieve this. European and African countries are expected to contribute with around 20 million euros.

<http://au.int>

## NEXT GENERATION OF INTERNET

The METIS-II project develops the overall 5G radio access network design and to provide the technical enablers needed for an efficient integration and use of the various 5G technologies and components currently developed.

<https://5g-ppp.eu/metis-ii/>

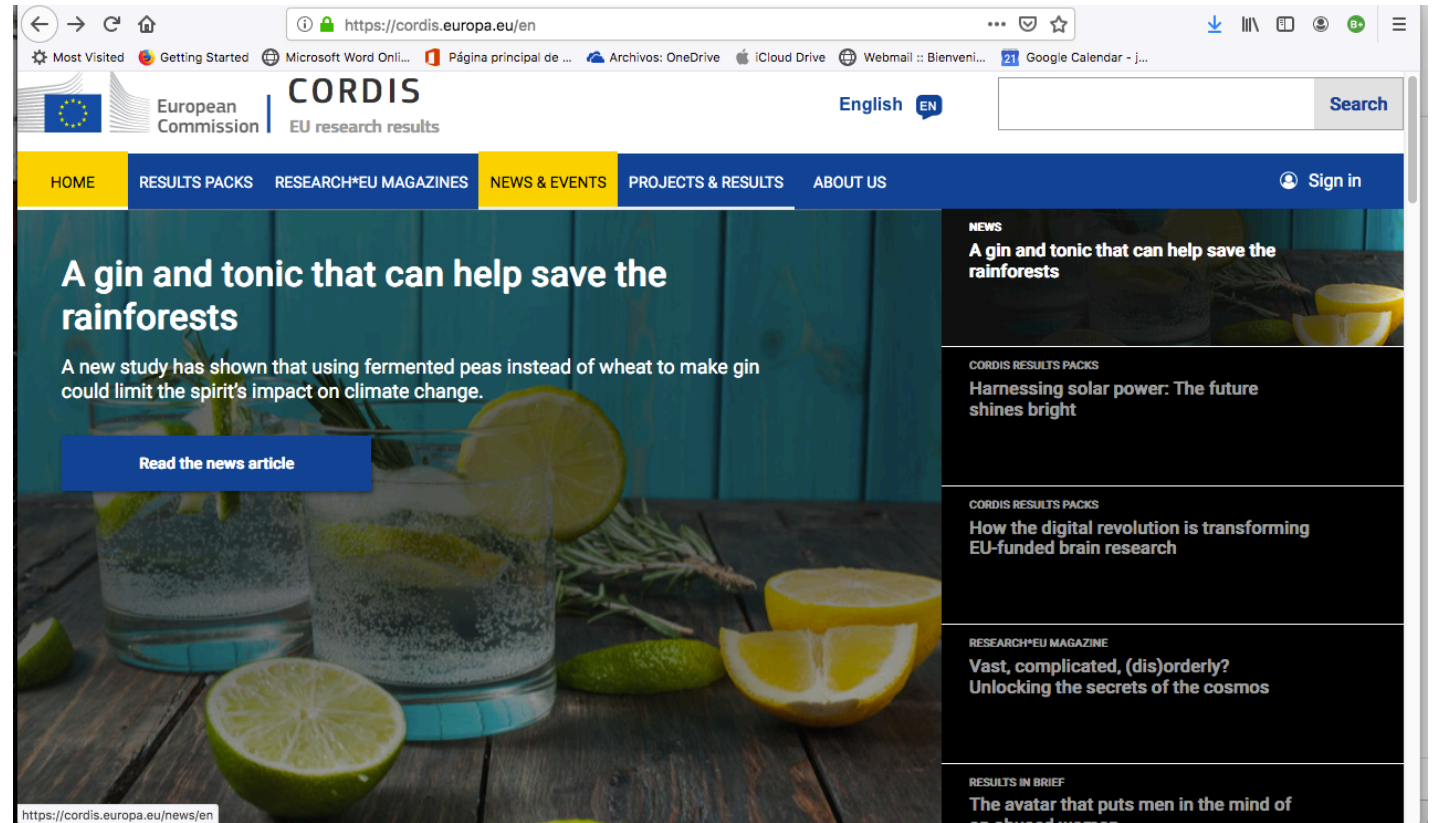

## TOWARDS NEAR ZERO-ENERGY BUILDINGS

ZERO-PLUS aims to reduce by 16% the current cost of developing near zero-energy buildings by optimising energy consumption in neighbourhoods.

<http://www.zeroplus.org/>

# HORIZON 2020 PARTICIPATION

## ■ H2020 Top-10 organisations (2014-2019)

# HORIZON 2020 PARTICIPATION

- EU Contribution by pillar/  
thematic priority in H2020

# NEXT EU RESEARCH FRAMEWORK PROGRAMME: HORIZON EUROPE

- Budget proposed by EC: € 94.1 billion (still under negotiation)
- Main goals:
  - Strengthen EU science and technology thanks to increased investment in highly skilled people and research
  - Foster the EU's industrial competitiveness and its innovation performance, through the EIT and EIC
  - Deliver on the EU's strategic priorities: Paris Agreement on climate change & tackle global challenges
- 3 Pillars (evolution from H2020 but with some adjustments):
  - Excellent Science
  - Global Challenges & European Industrial Competitiveness
  - Innovative Europe

## B. EDUCATION IN THE EU

---

## B. EDUCATION IN THE EU

### **Legal base for Education in the EU:**

- Reference in the TFEU: third part, title XII (arts. 165-166)
  - Art. 165.1
  - Art. 165.2
  - Art. 165.3
  - Art. 165.4

# ERASMUS

- One of the biggest flagships and success stories of the EU: it started in 1987
- Inspired by Erasmus of Rotterdam but stands for: “**E**uropean **C**ommunity **A**ction **S**cheme for the **M**obility of **U**niversity **S**tudents”
- [Video](#) (3:41)

---

# ERASMUS

However, Erasmus (*the programme*) had a difficult start...

## ERASMUS + (2014-2020)

### **What is it?**

- EU's programme to support education, training, youth and sport in Europe
- Budget: € 14.7 billion
- To provide opportunities for over 4 million Europeans to study, train and gain experience

# ERASMUS + (2014-2020)

## General and specific aims

- Contribute to the [Europe 2020 strategy](#) for growth, jobs, social equity and inclusion, as well as the aims of [ET2020](#), the EU's strategic framework for education and training.
- Erasmus+ also aims to promote the sustainable development of its partners in the field of higher education, and contribute to achieving the objectives of the [EU Youth Strategy](#).
- Reducing unemployment, especially among young people
- Promoting adult learning, especially for new skills and skills required by the labour market.
- Encouraging young people to take part in European democracy
- Supporting innovation, cooperation and reform
- Reducing early school leaving
- Promoting cooperation and mobility with the EU's partner countries

# ERASMUS + (2014-2020)

## For whom

- Mostly European students, but not only!
- It merges seven prior programmes (education, training, youth, sport, Lifelong Learning, Youth in Action and five international co-operation programmes): opportunities for a wide variety of **individuals** and **organisations**
- Erasmus Mundus programme: oriented towards globalising European education & open to non-Europeans
- More information: [Erasmus+ yearly Programme guide](#) & [Erasmus + Project Results Platform](#)

# ERASMUS + (2014-2020)

## Opportunities for organisations

- Key Action 1: Learning mobility of individuals
- Key Action 2: Innovation and good practices (*develop the education, training, and youth sectors through five main activities*)
- Key Action 3: Support for policy reform (*participation of young people in democratic life*)
- Jean Monnet: *Teaching, research, and policy debate on the EU and its policies*
- Sport

## Opportunities for individuals

- Students
- Staff (teaching & training)
- Trainees
- Young people
- Youth workers

---

## ERASMUS + (2014-2020)

### **What type of support does Erasmus+ provide for**

- Grants for a wide range of actions,
- Including the opportunity for:
  - students to undertake work placements abroad
  - teachers and education staff to attend training courses

# ERASMUS + (2014-2020)

## Participation

- 9 million people have participated to the Erasmus programme since its creation
- Spain is the country that allowed most people to participate: more than 40.000/ year
- Countries receiving most students: Spain, Germany
- More than 4.000 higher education institutions participate to Erasmus across 37 countries

**More than 30 years  
of Erasmus higher  
education exchanges**

**STUDENTS MOVING BETWEEN  
PROGRAMME COUNTRIES\***

**TRAINEES MOVING BETWEEN  
PROGRAMME COUNTRIES\***

**STUDENTS MOVING  
FROM/TO  
PARTNER COUNTRIES\***

\*The 33 Erasmus+ Programme Countries are the 28 EU Member States, Iceland, Liechtenstein, Norway, the former Yugoslav Republic of Macedonia and Turkey. Partner countries are all other countries in the world.

© European Commission, 2018

## How international was Erasmus+ in 2017?

### Cooperation with Partner Countries\*

**1 556** scholarships for students  
from **128** nationalities  
to take part in  
**100** Erasmus Mundus  
Joint Master Degree programmes

**34 000** student  
and staff exchanges

**5 600** new university exchange  
agreements between  
Programme Countries\*  
and the rest of the world

**149** new projects for higher  
education cooperation between  
universities from Programme  
Countries and others throughout  
the rest of the world

\*In 2017, there were 33 Erasmus+ Programme Countries: the 28 EU Member States, Iceland, Liechtenstein, Norway, the former Yugoslav Republic of Macedonia and Turkey. Partner Countries were all other countries in the world.

# NEXT ERASMUS + PROGRAMME (2021-2027)

- € 30 billion budget (still under negotiation)
- More inclusive, more simple to apply, more funding
- Quote from rapporteur [Milan ZVER \(EPP, SI\)](#), during the debate in the European Parliament plenary:

*“Our aim is to make the new Erasmus+ programme more user-friendly and inclusive, accessible and fair for all groups of young people and adults, regardless of their economic situation and other circumstances.*

*Erasmus + does not only allow participants to study and train abroad, it also helps to strengthen European identity and improves employment opportunities. It gives participants the knowledge and skills to enrich their personal and professional lives.*

*I believe that investing in Erasmus is investing in the future of the EU. I again call on the European Commission and the Member States to support a threefold increase in the budget in the dialogue.”*

---

## ERASMUS... A CULTURAL PHENOMENON

- For many Europeans: first experience in living and studying abroad
- “Erasmus generation”
- Strengthen European solidarity
- Mixing of Europeans: more than 1/4 of Erasmus participants have met their life partner

# ERASMUS... A CULTURAL PHENOMENON

## Transparency and the EU

Citizens can, and indeed should, expect the EU decision-making process to be as transparent and open as possible. The more open the process is, the easier it is to ensure balanced representation and avoid undue pressure and illegitimate or privileged access to information or to decision-makers. Transparency is also a key part of encouraging European citizens to participate more actively in the democratic life of the EU.

The transparency register has been set up to answer core questions such as what interests are being pursued, by whom and with what budgets. The system is operated jointly by the European Parliament and the European Commission.

## D. A CASE STUDY: NEGOTIATIONS AND LOBBY FOR THE NEXT EU RESEARCH FRAMEWORK PROGRAMME:

- A. EU research framework programme (FP) processes: the programme lifecycle
- B. Timeline
- C. Development of Horizon Europe
- D. In the meantime...

## A. THE FP PROCESSES

- In 35 years – 8 framework programmes for research and innovation
- A lifecycle has been designed and streamlined to include four phases
- The adoption of the FP has also been synchronized with the Multi-annual Financial Framework

**Figure 1 – Lifecycle of the framework programme**

Source: EPRS.

## A. THE FP PROCESSES

- In three of the four phases the EU institutions are involved: adoption, implementation and evaluation
- National Parliaments and other stakeholders are involved too

**Figure 1 – Lifecycle of the framework programme**

Source: EPRS.

## A. THE FP PROCESSES

The Treaty on the Functioning of the European Union (TFEU) requires the adoption of **three pieces of legislation** to establish a framework programme (Articles 182-183 TFEU):

1. A **regulation** establishing the framework programme that defines the scientific and technological objectives to be achieved, indicates the broad lines of activities and fixes the maximum overall amount and the detailed rules for Union financial participation in the programme.
2. A **decision** establishing each of the specific programmes implementing the FP that define the detailed rules for implementation, fix their duration and provide for the means deemed necessary for each specific programme.
3. A **regulation** that determines the rules for the participation of undertakings, research centres and universities, and lays down the rules governing the dissemination of research results.

## A. THE FP PROCESSES

- Regulations and decisions are adopted either by the Council of the EU and the European Parliament under the **ordinary legislative procedure (co-decision)** or by the Council following **consultation** with the European Parliament

Piece of legislation	Type	Article TFEU	Procedure
Framework programme (FP)	Regulation	182(1)	Ordinary legislative procedure
Specific programmes	Decision	182(3)	Consultation procedure
Rules for participation and dissemination	Regulation	183	Ordinary legislative procedure
Public-public partnerships	Decision	185	Ordinary legislative procedure
Joint undertakings	Regulation	187	Consultation procedure
European Institute for Innovation and technology (EIT)	Regulation	173(3)	Ordinary legislative procedure
Strategic agenda of the EIT	Decision	173(3)	Ordinary legislative procedure

# A.THE FP PROCESSES

- Focus: on the proposal for a **Regulation**
- Legal basis: art. 182.I TFEU
- Ordinary legislative procedure

Proposal for a regulation of the European Parliament and of the Council establishing Horizon Europe – the framework programme for research and innovation, laying down its rules for participation and dissemination		
<i>Committee responsible:</i>	Industry, Research and Energy (ITRE)	COM(2018) 435
<i>Rapporteur:</i>	Dan Nica (S&D, Romania)	7.6.2018
<i>Shadow rapporteurs:</i>	Christian Ehler (EPP, Germany) Evžen Tošenovský (ECR, Czech Republic) Lieve Wierinck (ALDE, Belgium) Neoklis Sylikiotis (GUE/NGL, Cyprus) Jakop Dalunde (Greens/EFA, Sweden) Rosa D'Amato (EFDD, Italy) Barbara Kappel (ENF, Austria)	2018/0224(COD)  Ordinary legislative procedure (COD) (Parliament and Council on equal footing – formerly 'co-decision')
<i>Next steps expected:</i>	Relaunch of trilogue negotiations	

Source: EPRS

## B.TIMELINE FOR THE NEXT EU RESEARCH FP (HIGHLIGHTS)

- **2015-2017**: preparations for the next Framework Programme proposal
- **2018**: European Commission proposals for the next EU Budget (MFF 2021-2027) and Horizon Europe
- **2018-2019**: opinions by National Parliaments, stakeholders & political negotiations (EP and Council)
- **2020**: finalising negotiations (EU Budget and other topics), development of FP first work programmes
- **1 January 2021**: launch of Horizon Europe (desired)

Evaluation of the previous framework programmes:

- Final evaluation of the seventh framework programme (FP7) in 2015
- Mid-term evaluation of Horizon 2020 (2014-2020) in 2016-2017

Expert studies and advisory groups to reflect on issues that emerged from the mid-term evaluation of H2020 (e.g. *economic rationale for public support for R+I, foresight studies, investing in the future we want*) in 2017

## TIMELINE IN DETAIL: EVALUATION

## B.TIMELINE IN DETAIL: ADOPTION

- Early 2018: EC public consultation on EU funds in the area of research & innovation and call for feedback on research and innovation missions
- 2 May 2018: The Commission adopted its **proposal for the next EU long-term budget** (MFF): **€1,135 billion** in commitments, equivalent to 1.11% of the EU27's gross national income. It will be the first EU Budget with 27 Member States

### The size of the EU budget as a percentage of gross national income (GNI)

*Commitments ceiling in % EU GNI*

■ Commitments ceiling in % EU GNI

■ European Development Fund

(\*) 2014-2020 estimated commitments (UK expenditure excluded) in % EU27 GNI

(\*\*) European Development Fund integrated ("budgetised")

Source: European Commission

## B.TIMELINE IN DETAIL: ADOPTION

- 7 June 2018: The Commission adopted its proposal for Horizon Europe (FP9), which contains:
  - **The HEu framework programme, including its rules for participation and dissemination** (COM(2018) 435)
  - A specific programme to implement Horizon Europe (COM(2018) 436)
  - A research and training programme under the Euratom Treaty complementing Horizon Europe (COM(2018) 437)
- Proposed budget of € 94,1 billion
- Video on the objectives of Horizon Europe (2:23)

## B.TIMELINE IN DETAIL: ADOPTION

### Reactions to the Commission proposal:

- Advisory Committees: CoR and EESC (October 2018)
- National Parliaments largely supported the proposal
- Stakeholders' views: e.g. technology platforms, European University Association, European Association of Craft and Medium-Sized Enterprises, Eurodoc, etc. For example:
  - 13 university associations jointly advocated for more budget for Horizon Europe (€ 160 billion)
  - YERUN [position paper](#) for the 9th Framework Programme

### **A Research & Innovation Agenda for a Global Europe: Priorities & Opportunities for the 9th Framework Programme**

A Position Paper by the Young European Research Universities Network

## REACTIONS TO THE COMMISSION PROPOSAL:

- Again, in July 2019, 15 university associations called for an ambitious Horizon Europe budget
- E.g. Twitter campaigns like #EUInvestInKnowledge

## B.TIMELINE IN DETAIL: ADOPTION

### Legislative process:

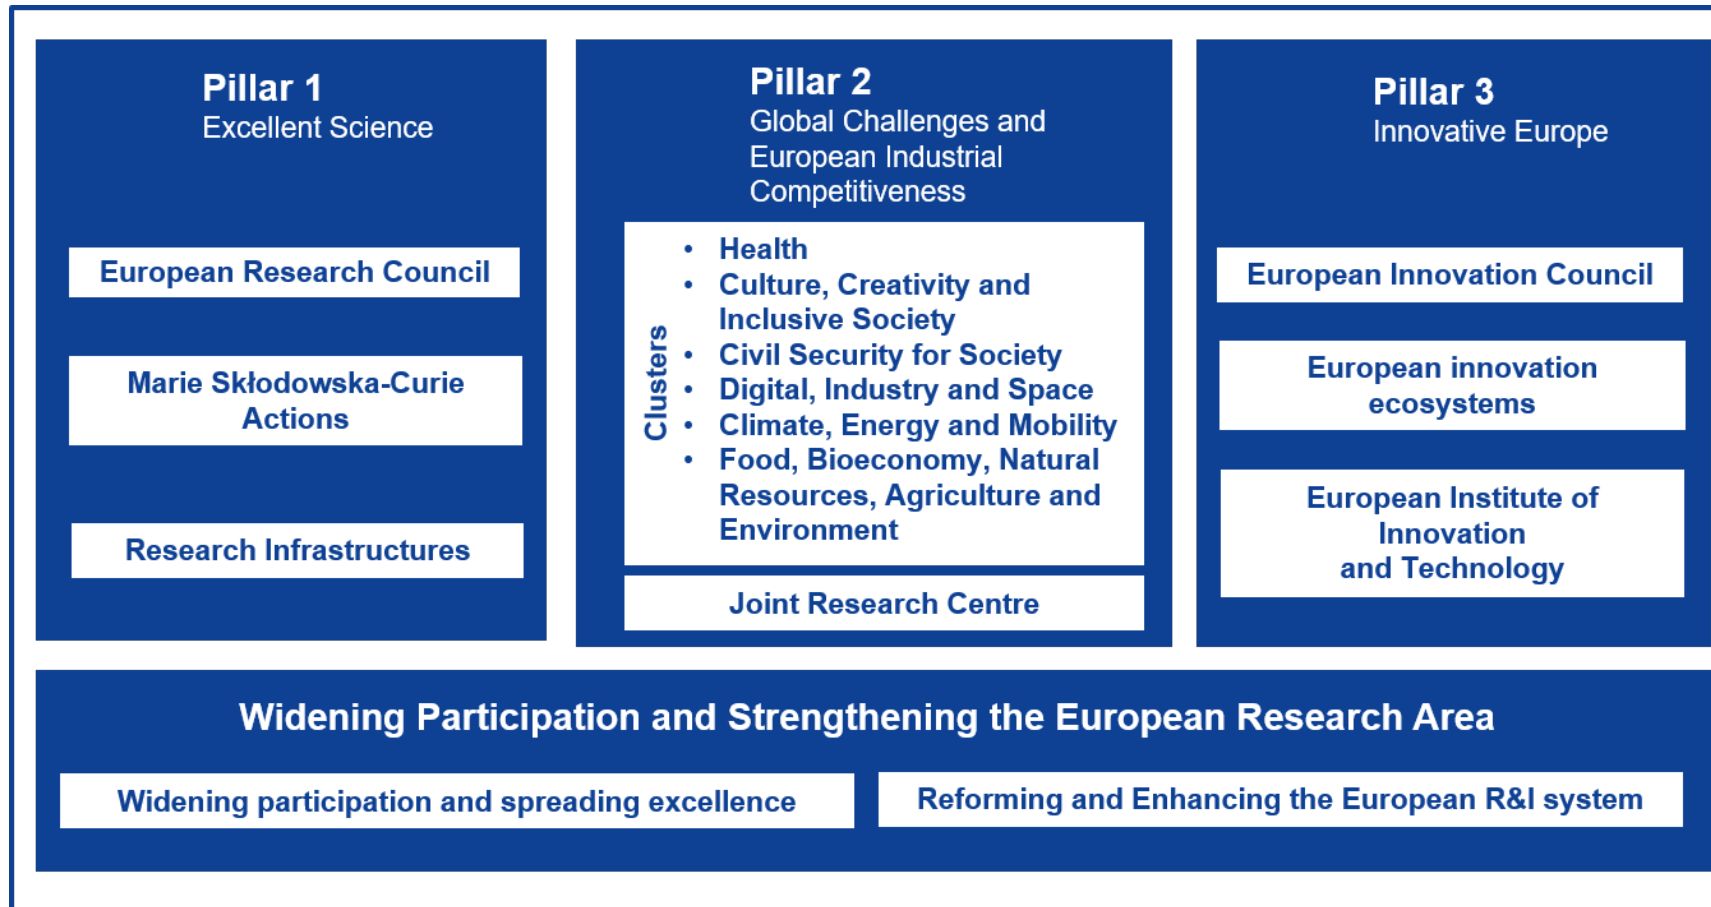

- European Parliament: plenary adopted amendments to the proposal (12.12.2018) & provided the mandate to enter into the informal negotiations (trilogue) with the Council
- Council: most delegations welcomed the proposal but a number of issues were raised (sept. 2018); partial general approach reached on 30 November 2018 – not covering the budget to align the negotiations with the EU budget
- Trilogue meetings between EP and Council began in January 2019
- The EU institutions reached a provisional agreement on the content of Horizon Europe on 20 March 2019. The EP endorsed the provisional agreement on 17 April 2019 (1st reading)

## C. DEVELOPMENT OF HORIZON EUROPE

- Following the political agreement reached by European Parliament and Council in spring 2019, the Commission has begun a **strategic planning process**.
- The result of the process will be set out in a multiannual Strategic Plan to prepare the content in the work programmes and calls for proposals for the first 4 years of Horizon Europe.
- The process will identify, among other things:
  - Key areas for research and innovation support and their targeted impact
  - European partnerships
  - 5 Mission areas (*new!*)
  - Areas of international cooperation

# PRELIMINARY STRUCTURE OF HORIZON EUROPE

## C. DEVELOPMENT OF HORIZON EUROPE

### Online co-design consultations

- Shape the priorities of the Horizon Europe programme by completing the [Horizon Europe co-design consultation](#) (I) and the [implementation consultation](#) (II)

### Co-design in the European Research and Innovation Days

- [European Research and Innovation Days](#), 24-26 September 2019

### Other open consultations on 12 institutionalised partnerships

- Open until 6 November

## C. DEVELOPMENT OF HORIZON EUROPE

- Two public consultations with each their orientations documents (towards 1. the Strategic Plan, and 2. towards the Implementation Strategy)
- Spanish Stakeholder workshop on Horizon Europe implementation: 9 October 2019
  - Aim: discuss concrete aspects of the implementation of the FP and share the conclusions with the European Commission
  - Very specific topics to be discussed:
    - Proposal submission, evaluation and selection
    - Model Grant Agreement
    - Lump Sums
    - Control strategy: ex-ante and ex-post controls
    - Project reporting

# IN THE MEANTIME...

- New European Parliament since July 2019
- President-elect Ursula von der Leyen has nominated her future colleagues, which have to be approved by the European Parliament
- Next European Commission as from 1 November 2019 (in principle)
- The Bulgarian Mariya Gabriel has been nominated for the portfolio of “Innovation and Youth”, which includes Research, Innovation and Education (> *Mission Letter*)
- Brexit or no Brexit?

## European Commission Candidates 2019-2024

 Ursula von der Leyen (Germany) PRESIDENT	 Frans Timmermans (The Netherlands) EXECUTIVE VP FOR GREEN DEAL	 Josep Borrell (Spain) VP & HR FOR FOREIGN AFFAIRS & SECURITY POLICY	 Margrethe Vestager (Denmark) EXECUTIVE VP FOR DIGITAL AGE & COMPETITION
